### ACADEMIC PROJECTS

- **Title** : Online BachatGat  
**Platform** : J2EE, Spring ,Hibernate

**Duration** : 1 Months

**Description** : The project is a web based shopping system for products made by BachatGat. The project objective is to deliver the online shopping website. The main purpose of a business site is to promote BachatGat products on the Internet. There are two main aspects to discuss. First, to provide platform to BachatGats so they can connect worldwide and the other is to create buzz or awareness.

- **Title** : Morse Code To Text Converter For Marine Communication

**Platform** : VHF

**Duration** : 6 Months

**Description** : We propose a compact system for communication using Morse code for transmission of messages using VHF antenna and small transmitter which transmits Morse code using Morse key. These transmitted signals are received by the walkie-talkie. The received messages are in the form of dot & dash. This code is then converted into text format and is directly displayed on screen. As the Morse code needs a skilled person to decode, the proposed system automatically converts the received signals into text.
